DETAILED ACTION

1. The following action is in response to communications received on 04/14/2010. Claims 33-60 have been canceled. Claims 61-95 are new, claims 61-95 are pending in the application, and have been addressed below.

Allowable Subject Matter

2. Claims 61-95 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: In the instant application, the applicant employs a novel structure for sensing movement in an axial or transverse direction with a single sensor in a handheld impact sensing device. Though the concept of sensing impact of a simulated handheld weapon is old and well known as taught by US Patent 2,206,697 to Harter, the applicant's specific structure, including a tang portion of an elongated element and an opening in a handheld housing that together permit axial and transverse movement of the elongated element in such a way as to activate the same sensor for either motion, is neither taught nor reasonably suggested by the prior art.
